Handbook of Agriculture is one of the most popular IKAR publications with a wide readership. This publication presents a scientific reference book. This handbook is an appendix to the textbook on beekeeping, and it will be especially useful to those who wish to master this noble art.

Beekeeping is a science in which they study and reveal the patterns of life of bee colonies, the techniques and methods of their breeding, feeding, keeping and caring for them. In turn, beekeeping is divided into a number of industries, including industries related to bees and industries that do not have a direct connection with them.
