Pownce

⬚ Send any kind of note. It's time to enhance your Windows by the Pownce Desktop Client, the best way to send messages and share stuff to your friends. What kind of stuff? You can send just about anything: music, photos, messages, links, events, and more. You can do it all on the web

site, or install this lightweight desktop software that lets you get out of the browser. Here are some key features of "Pownce": Access all your mail and the friends in your address book right from the toolbar. Send any kind of note. Alert you when a new note comes in. Auto-updates every 60 seconds. Progress bar for sending files. Requirements: Adobe AIR KeyMacro Description: Send any kind of note. Alert you when a new note comes in. Auto-updates every 60 seconds. Progress bar for sending files. The Official Pownce Desktop Client: The desktop client is here just

in case you prefer to use the Pownce web interface. Internet Explorer, Safari, Firefox, or Chrome. All the browsers that support the Adobe Air software, such as Firefox, Internet Explorer, and Chrome. If you don't see Pownce in your favorite browser, please let us know. Google Chrome Firefox Internet Explorer KeyMacro Description: What you can do with KeyMacro: ⬚ Connect to an existing Pownce web site. ⬚ Send any kind of note. ⬚ Send an attachment with a "file://" URL. The web site is your friend. You don't need to send anything from the desktop client. You

can connect to it, then use the methods you prefer: ⬚ Send notes by email, SMS, or voice. ⬚ Send images, voice recordings, music, videos, and more. Requirements: ⬚ Adobe AIR KeyMacro Description: What you can do with KeyMacro: Connect to an existing Pownce web site. Send any kind of note. Send an attachment with a "file://" URL. Send images, voice recordings, music, videos, and more. The official Pownce web site: 77a5ca646e

Pownce is a fast way of sending messages, photos, links, events and more. The interface is simple but very effective: just click to send a note, upload a picture, or add a link. If you install Pownce on your computer you'll get a new icon in the desktop menu. Clicking this icon will open a window where you can view your Pownce notes. Click on the Notes tab to view your Pownce messages. Additional info: ⍰ You'll need a Microsoft.Net framework 2.0 or later version. ⍰ Make sure you have.Net

2.0 installed ⬜ Make sure you have Adobe AIR installed. ⬜ Visit the Pownce homepage for more info. ⬜ If you have any problems, the Pownce web site has all the details you need. Note: This download is for computers with Windows operating systems. Mac users may download the web site version. Misc: Do you like this app? Help us improve it: ⬜ Send any bug reports or feature requests to the Pownce web site. ⬜ Tell your friends about Pownce. ⬜ If you have any general comments or questions, feel free to contact us.Q: .htaccess when rewrite rule is not working but rule

inside the rewrite rule is working I want to rewrite this url to this url I tried to do it in this way: Options +FollowSymLinks RewriteEngine on RewriteCond %{THE_REQUEST} \s /+forum/forum.php\?cat=([0-9]+)&page=([0-9]+)&page=([0-9]+)&page=([0-9]+)&page=([0-9]+) RewriteRule ^ /forum/forum.php?cat=%1&page=%2 [R,L] But this doesn't work. I can access the page I wanted to, but it doesn't go to the first rewrite condition. Can anyone tell me what I did wrong? A: You need a valid wild

What's New In Pownce?
