A: You have to go to the "Settings" tab, select "Keyboards", select the "Device" which you want to use, and then, under the "Keyboard" section, you can select the specific keyboard layout you want. As for the correct keyboard symbols, those are on the "Options" tab, select "Options", select "Suggestions". The symbols are listed by keyboard, with the right key and its symbol on the left. Q: Storing the random string in separate array I have made a code for making an image wallpaper. I want to store the random string in an array so I don't have to re-gen a random string every time the wallpaper is changed. But even though the code works, it still shows the string from the last time it generated the string. System.loadLibrary("com.flutter.plugins.image_picker"); flutterView = (FlutterView) findViewById(R.id.flutter_view); flutterView.setVisibility(View.VISIBLE); ImagePicker.pickImage(new ImagePicker.FileTypeFilter(files("jpg", "png", "jpeg")), new ImagePicker.ImagePicker.Callback() { @Override public void onImageChosen(String url, Bitmap bitmap) { if(bitmap!= null){ image = Bitmap.fromByteArray(bitmap.array(), 0, bitmap.getHeight(), bitmap.getWidth(), bitmap.getHeight(), 3da54e8ca3
