123 Word To Pdf Converter Free Download (Latest)

123 Word to Pdf Converter Free is a program with a pretty self-explanatory name - it allows you to transform Microsoft Word documents (DOC, DOCX, DOCM and RTF) into PDF files. The tool comes with a user-friendly interface where you can import items into the file list by using either the file browser, folder view or 'drag and drop' method. Processing multiple items at the same time is possible. The file queue shows the name, location, size and type of each entry. So, once you establish the output directory and filename, you can proceed with the conversion procedure. In addition, you can select the type of the output PDF between an image and text format, as well as make the program display error information during conversion and open the target folder when the task is done. You can also remove an item from the list or clear the entire file queue, as well as save the document list for further use and change the UI language. The PDF conversion program needs a moderate amount of system resources, has a good response time and quickly finishes a task. We have not come across any problems in our tests; 123 Word to Pdf Converter Free did not freeze, crash or pop up error dialogs. There is no help file available. Thanks to its intuitive layout, the app's features can be easily figured out by less experienced users. 123 Portable PDF Generator Free is a free PDF creation tool that allows you to create, convert, edit and merge PDF files and supports Windows 7, XP, Vista and 2000 systems.
