It is simple to install on your web-server, Windows and Mac OS X. Additional Information: - Released: 2013-03-19 - Size: 10.3 MB - Updated: 2013-03-19 This post has no tag Permanent Link to This Post Jump to: You must be logged in to mark this post as resolved. Become a Buddy!Q: How to Make the User to Enter a Character Last for X Seconds or Counts Down? I'm making an app in which the user types in a string and a character counter. I want the character counter to start at a specific point (e.g. 3 seconds after the user starts typing in the string) and count down to 0 (0 seconds). What's the best way to do this? Thanks. A: Use the Timer class and its scheduledTimerWithTimeInterval: target: selector: and also either dispatch\_async or dispatch\_semaphore\_t How to use the timer depends on what kind of effect you want. You should take a look at this question: What is the best way to trigger a timer in iOS? The content of this question is better explained there: What is the best way to trigger a timer in iOS? So, my suggestion for your particular problem is: start a timer at the beginning of the typing. And let the timer run every time user types something. If you want to add a delay, you have to give more

---

information as to what you want the delay to be. Is it random, or does it have to happen at a specific moment? Then `dispatch_after` would be your friend. CSS Grid Layout Test: Positioned Flex Items

---

## System Requirements:

Processor: Operating system: Windows 7 Processor: 2.5 GHz dual core or better RAM: 1 GB Graphics card: NVIDIA® GeForce® GTX 770 with 1 GB NVIDIA® GeForce® GTX 770 with 1 GB OS: 64-bit Video card: 512 MB (1GB recommended)
