- Use the KeyMacro, also called shortcut codes, to write scripts for the widget. KEYMACRO allows you to define a macro by selecting which key on your keyboard you want to assign a shortcut to. There are many key combinations available, and the list can be expanded to include media keys, such as MUTE/ VOLUME for Windows Media Player, and more. The list of possible keys is limited only by your imagination. KEYMACRO only works with the Yahoo Widgets engine, which is the widget engine of choice for Yahoo! Widgets. The Yahoo Widgets engine can be installed in widgets like: Yahoo, Facebook, and Delicious. It will be available in new Yahoo Widgets later this year. To install Yahoo Widgets Engine: Open the Widgets Dashboard Press the Widgets

[Phone Store](#) Designed specifically to be used with the Windows Phone Music + Video app, Groove Music Player provides a fast, simple and beautiful way to play your personal music library on your Windows Phone. The app is 100% free, and has no ads or hidden charges. It works with a large collection of mainstream audio formats like AAC, MP3, OGG, WMA and WAV, as well as the ability to play live tracks from a Bluetooth enabled device (a feature that only works with Groove Music Player due to compatibility issues with other music playing apps). To browse your music simply tap on the '+' icon, and you can browse your music
