CDBF - DBF Viewer and Editor is a Windows program specialized in reviewing and editing DBF files. The program lets you edit memo fields in dBase III, dBase IV, FoxPro, Visual FoxPro and dBase Level 7 formats, while being able to

automatically identify the memo field type.

**Importing/exporting options** You can add DBF files in the working environment using the built-in browse button or drag-and-drop support. The tool lets you print or export the edited documents to CSV, DBF, XLS, HTML, PRG, SDF, SQL, XML, or plain text file format. Additionally, you can save the current project to a file so you can easily import it for future editing actions. You can also pick the items that you want to include in the output file, such as title, structure, column headers, detail, and summary. CDBF - DBF Viewer and

## **System Requirements For CDBF - DBF Viewer Editor:**

Recommended: There is a requirement to install large file and extraction software such as 7-zip, Winrar, Winzip, WinRar etc... in order to extract the files. You must have a minimum of 4GB of RAM. There is a requirement to have the latest DirectX 11 and the latest video card drivers installed. Game Mode: Observer Replay Pack I plan to keep the replay pack at under 400 MB. Each
