The Most Popular Chori Chori Chupke Chupke Mp4 Movie Free Download | Book OverdriveQ: How to set default values for parameters of a method in c#? I have a Method with several parameters. Each parameter is either a value, which I set manually, or a default value, which I get from a database. How can I set a default value to all of them? A: As all parameters are optional, you need to check whether a parameter is present or not to determine the data to pass to it. So in this case you could use an extension method to make it more readable: public static class Extensions { public static void SetDefaults(this MethodInfo methodInfo) { MethodInfo[] paramInfo = methodInfo.GetParameters(); foreach (MethodInfo paramInfo in paramInfo) { PropertyInfo propertyInfo = paramInfo.ParameterType.GetProperty("DefaultValue", BindingFlags.Instance | BindingFlags.Public | BindingFlags.NonPublic); if (propertyInfo != null) { object defaultValue = propertyInfo.GetValue(null, null); 79a2804d6b
