Puran Utilities 1.0.4 [Latest 2022]

Prosoft PC Utilities is a free utilities suite that will fix any missing applications and files, clean the computer, backup, optimize, repair system, optimize hard drive and many other options. Puran Utilities has been designed to bring all the essential tools into one place in order to speed up, maintain and optimize your PC. This is our top-rated PC Utilities suite, which is built by us at Prosoft Technology Inc., a renowned hardware and software developer since 2001. Puran Utilities consists of a rich collection of utilities bent on optimizing and speeding up your computer, comprising all that is necessary in order to perform a complete maintenance of the system. A quick and intuitive way to launch practical tools The applications included in the suite are available as separate downloads as well, but having all of them under the same hood is a major advantage, in our opinion. From our experience, such a set is rare and should be taken advantage of immediately if you're interested in keeping your computer in shape. Puran Utilities sports a simple appearance, with the main GUI hosting shortcuts to all of the apps included in the suite. This is also the place that offers an option to create a restore point to have as a backup plan in case of errors. A complete PC management set The list displayed in the main window of Puran Utilities includes the following (presented in the order of their appearance): a disk checker, a program uninstaller, a startup manager and a service manager, a disk cleaner, a remover for empty folders, a shortcut fixer, a registry cleaner, a registry defragmenter, a disk wiper and a system info application, to name the ones dealing with more sensitive areas of the computer. Utilities such as the data and file recoverer, the duplicate finder, the splitter and the permanent deletion app fall under the file management category. There's also a shutdown timer that helps schedule operations such as restart, sleep, hibernate, log off and so on. To top it all off, there are two components in the suite, the Maintenance Wizard and the Batch Fix, which combine the power of the abovementioned utilities in order to optimize the computer fast and efficient. To end with Considering all of the above, we dare say that Puran Utilities is worth a shot, especially for the palette of tweaks and fixes that it brings to the table, making it easy for anyone to perform advanced maintenance tasks.
