METIS Editor

• METIS Editor is a friendly application that allows you to add new entries in the MySQL database created by CRAFT. The program allows you to specify multiple pathways, add reaction details and graphically create the reactions in the MOSES reaction editor. • The program can also be used for publishing the information for CRAFT with just one click. It aims to provide you with an easy to use interface for accessing the metabolism and degradation reactions from the CRAFT's database. Note: METIS can be used in a commercial context but any use must be compliant with the EUPL version 1.1 license terms. The MOSES.ReactionEditorEmbedded Module can be used free of charge for any purpose, including for commercial use, ONLY in conjunction with the METIS software.
