Q: UITableView delegates does not fire in viewDidLoad I am having a strange issue where my delegates are not firing. I believe it has something to do with the viewDidLoad method but I'm not sure why it is doing that. I added my delegate code to the viewDidLoad method. When I log the messages, I do not get any of them printed.

```
class ScoresViewController:
UITableViewController, UITableViewDelegate, UITableViewDataSource { @IBOutlet weak var
tableView: UITableView! var ScoresArray: [Score]! override func viewDidLoad() {
super.viewDidLoad() tableView.dataSource = self tableView.delegate = self
```
