Hello i'm trying to set a text to a Image in my ListView, but it displays nothing in the emulator :(The reason, i'm trying to do this, is that i am using the gridworld, and i want to have a different background-image for each cell, and i was doing this before, making the Image the background of my Lists row and every time the user click on that cell it would show a new image. Here is my code: `ListView listview = new ListView(batch); Texture texture = new Texture("game/img/background.png"); Sprite sprite = new Sprite(texture, true); sprite.setPosition(positionX, positionY - 260); sprite.setSize(200, 200); List list = new ArrayList(); list.add(sprite); listview.addListener(new ListView.ListViewClickListener() { @Override public void onClick(final ListView lv, View v, int position, long id) { int index = position; if (list.get(index) != null) { list.get(index).flip(); gameWorld.getGdxCamera().update(); list.get(index).setPosition(50 * i, 30 * j); System.out.println(list.get(index).getBounds().getWidth() + ";" + list.get(index).getBounds().getHeight()); Gdx.app.log("H", " 79a2804d6b`
